Abhinay Pale

UX / UI Design Lead

UX/UI Design Lead with 8.5 years of experience designing enterprise SaaS, web and mobile products across healthcare, FinTech, renewable energy, education, digital media and e-commerce. Skilled in leading full design cycles, from discovery and research to high-fidelity prototypes and dev handoff, with hands-on expertise in data visualisation, design systems and legacy system modernisation.

8.5 yrs

Designing enterprise products

4+

Domains, from healthcare to digital media

MSc

UX Design, Kingston University London

WORK EXPERIENCE

UX / UI Design Lead

Aug 2021 – Present

Think Design Collaborative · Hyderabad

FinTech Renewable Energy Healthcare

- Led redesign of a legacy Java-based diagnostics portal into a scalable web application; designed role-driven UX for 3 personas, a full icon library, design system and 25+ screens across a 4-week sprint.
- Designed 9+ enterprise data dashboards for a global pharma company, introducing KPI snapshot architecture and persona-based navigation that reduced drill-down dependency and accelerated executive decision-making.
- Led UX integration of a Solar Asset Performance Management platform into an enterprise digital framework; delivered personas, user story maps, IA and Figma prototypes.
- Designed 8 modules for a capital markets SaaS platform (depository, optimisation, agreements, collateral, liquidity), including a query builder that lets non-technical users create eligibility rules.
- Managed client workshops, stakeholder reviews and design handoffs across geographies; mentored junior designers and maintained design consistency across multi-team product squads.

UX / UI Designer

Jul 2019 – Jul 2020

Purview Services · Scotland, UK

- Delivered end-to-end UX for the product, including user research, persona creation, wireframes and iterative prototypes; presented design concepts directly to international clients.

UX Designer

Oct 2015 – Mar 2018

Azri Solutions · Hyderabad

- Designed web and mobile interfaces across different verticals and managed the full design lifecycle, from discovery to developer collaboration.
